

# MARTIN KHACHATRYAN

Laravel Full-stack Developer

+374 99 58 19 74 | martin.khachatryan.2024@gmail.com | [LinkedIn](#) | [GitHub](#)

## Summary

---

Full-stack developer with hands-on experience building and maintaining Laravel-based applications using clean backend architecture. Experienced in developing RESTful APIs, implementing service layers, job queues, authorization policies, and scalable admin systems. Comfortable working across the stack using modern frontend tools such as React.js, Livewire, and Tailwind CSS to deliver responsive interfaces. Focused on writing simple, maintainable, and production-ready code.

## Technical Skills

---

<b>Backend:</b>	PHP (OOP), Laravel (API & Web), RESTful APIs, Swagger Docs, Service Layer Architecture, Laravel Jobs, Notifications, Mail, Cache, Authorization Policies, Request Validation, Spatie (MediaLibrary, Permission, Builder), MySQL, Eloquent ORM, Query Optimization, Filament Admin Panel
<b>Frontend:</b>	HTML, SCSS, Tailwind CSS, JavaScript, jQuery (AJAX), React.js (Axios, React Router), Redux, Livewire, Alpine.js
<b>Tools:</b>	Git, GitHub, Postman

## Experience

---

### Laravel Developer

*TCO Gyumri Team*

March 2025 – Present

*Gyumri, Armenia*

- Develop and maintain Laravel-based applications using clean and scalable architecture.
- Design and implement REST APIs for internal and external integrations.
- Build and maintain admin dashboards and management systems using Filament.
- Integrate Spatie packages for media management, permissions, and data handling.
- Implement asynchronous processes using Laravel Jobs and queues.
- Optimize database queries and improve application performance.
- Collaborate with frontend developers to integrate React-based interfaces.
- Participate in debugging, feature planning, and production support.
- Maintain version control and team workflows using GitHub.

## Education

---

### TCO Team – IT Training Center

Jan 2023 – Aug 2023

Completed intensive full-stack development program covering frontend (HTML, CSS, JavaScript, React.js), backend (PHP, MySQL, Laravel), and version control (Git, GitHub).

## Objective

---

Seeking to contribute to impactful development projects, grow within a strong engineering team, and deliver clean, scalable solutions while continuously improving technical expertise.
